

THE
EDITOR
SAYS—

Some people are mighty hard to please. Advice given to the editor Friday morning on how to better the Standard was to cut out half of the paragraphs that we write, three-fourths as "As I see it," and all by "James Version." That we could leave that space blank or fill with patent medicine testimonials.

ANNOUNCEMENTS

Personals

NOTICE—After this date I will not be responsible for bills contracted by anyone except myself. S. H. Clelland.

Well, well. Wonder who is putting one over on the Cole One. And again, somebody may know a good thing when they meet it. There was once upon a time a man with the same initials stationed in Sikeston for a few months. Don't know whether it was our late Division Engineer or not, but it is all right here.

While Gen. Johnson is trying hard to regulate all lines of business, might we suggest that he call in Chick Sales and have him prepare new plans and specifications for his specialty. Also that Chick prepare plans to cancel some of the buildings already erected in Sikeston.

Here is one for Editor Blanton to ponder over: Albert Bentley, living in the east end of Illinois had a corn stalk growing, it had three ears of corn about developed. When the stalk was pulled up four well developed Irish potatoes were found growing on the roots of the corn stalk. Bentley took the corn, the Irish potatoes, added a little meat and made one of the best "mulligans" we ever tasted. "Can you beat it 'Sharlitz'?" Don't put us off by saying "its just a dam lie." We want a scientific explanation.—Immo Jimplicute.

We are having our research department investigate this phenomenon, but believe it to be just what you think it is.

Sikeston and Sikeston people should study long and seriously before going down in their pockets the coming winter to help those who have not tried to help themselves. Two days lately were set aside for a paid agent to assist, or show how to can fruits and vegetables and not a single individual appeared. Then two days were set aside for people to come to the canning room and get the fruit jars for nothing in order that needy could can their own, and not a jar was called for. Manager McCutchen, of the Malone Theatre, told in dozens of jars as passes for children in order to do his part to help feed the needy by preserving fruits and vegetables. We don't know whether those who seek help had nothing to can or whether they were too infernal lazy, or whether they expect the Red Cross to feed them again. The old Red Cross cow is about milked dry and give but little nourishment this time.

A grocer is sued by a customer whose raiment was soiled when a can of herring burst. A restaurant keeper is called upon to answer in damages for serving a patron with soup in which there was a dead mouse. A man asks nuptials in order that he may marry in peace. A fish handler is in trouble because one of his lobsters grabbed a prospective purchaser by the nose. A New Zealand contractor has been forced to take out a permit to build a house which was erected ten years ago, and a European doctor gets four weeks in jail for naming his dog after the prime minister. The law, like the tempter, seems to have a snare for all.

Each boxholder in LaPlata received last Friday morning a great big, cheaply printed circular printed on the cheapest kind of paper made, advertising about the cheapest lot of trash ever offered for sale in this community. The whole town was littered with the stuff within a few minutes after the post office opened. Cheapness standing out all over the circular printed in cheap red and black colors convinced our people at first look that the offer came from some house too cheap to deal with. Edina, the town from whence, this stuff was mailed, has one of the best printing shops in the country that could have printed these bills in a manner to have given it standing in a community like this. The cheap printing evidently came from the same cheap house that the worthless offerings came from.—La Plata Home-Press.

The third attempt by a young negro man to assault a white woman at night in Sikeston within the past few weeks occurred Monday morning near 4:00 o'clock in the Shoe Factory addition. This time the intended victim was a trained nurse sitting up with a sick lad. She fought him off and called for help when he jumped through a screened window and made his escape before officers could be around. Speaking personally, we would take pleasure in helping hang the party if he was caught and identified, and try him afterward. We believe the negro is hiding in Sikeston and believe a posse armed with shotguns should search every cabin in town for the scoundrel and if caught—let the law take its course! It should be the duty of every respectable negro to help catch this beast, because it casts a bad name on their race and eventually will lead to a race riot.

VOLUME 21

SIKESTON, SCOTT COUNTY, MISSOURI TUESDAY MORNING, AUG. 22, 1933

NUMBER 93

TRUCKERS TAKE 8-1 VICTORY FROM MIDWEST

SERIES BETWEEN OILERS AND POTASHNICK CONSIDERED.

Duke Weidemann's freight heavies added another victory to a solid string of second-half games by defeating the demoralized Midwest Aces 8 to 1 in the Thursday afternoon Muny League baseball game here. Manager Ted Kirby bolstered his lineup with would-be spectators, but failed to find an effective hitting streak to overcome the steady blasts of the Weidemann crowd. The Aces pushed over one run in the fourth when they threatened with a promising rally. Hart scored after getting on by an error on Bob Mow, Sr., scoring on a succession of hits and errors. Sells, regular first sacker for the Oilers filled, later pitched, and in the fourth laid down one of the scarce hits of the game. Kirby and Moody each saw first on errors but with the bases loaded Butler, moundman for the Truckers, whiffed three men in a row and retired the side. Bandy attempted to score in the fifth to be thrown out at home plate by Hudson. That stopped the scoring there.

The Potashnick nine started in the second and scored two runs, Sutton and Butler completing the circuit. They added two more in the third when Bob Mow, Jr., and Sutton scored on a long double by the elder Mr. Mow. Law added a circuit clout to the performance in the fourth, and Payne and Sherry each rounded the four bags in the fifth to complete the scoring in that frame. Hudson, by way of variety, added a triple in the sixth, and scored on Lee's bad luck at home plate to finish the score column.

The score: R H E
Potashnick 022 121 x 8 8 4
Midwest 000 100 x 1 2 2

SERIES TALK.

Considerable sentiment has been voiced to halt the present Muny League play at its present stage and to pit the first half winners against the obvious winners of the second half in a three or five game series for the championship.

The Standard Oilers walked away with the first half, and the Truckers have thus far demonstrated their superiority in the second half, winning seven straight games. Playing of the remainder of the schedule cannot effect the standing of the teams, especially with reference to the Truckers, point players and managers alike.

Commissioners of the League are expected to make an announcement setting the dates for the series. Pete McCoy and Duke Weidemann of the Oilers and Potashnick respectively, have indicated the possibility of a number of post season games with Cape Girardeau, Charleston and possibly Osceola, Ark. This matter will, however, be dealt with more fully after the playoff, if any, they point out.

The wedding ring quilt made by Mrs. Hodge Decker that was on display in the window of the H. J. Welsh building, is now the property of Mrs. Mack Higgins. Mrs. Decker has turned out some very pretty quilts and is an expert needle woman.

A fake was exhibited in the Peoples Bank Building the latter part of the week under the auspices of the American Legion. It was a "woman's head on a snake's body." The American Legion is taken for a ride by the nasty carnivals that come along that gives them mighty little money and no prestige.

We have been asked by a number of merchants and tradesmen about a possible boycott if they are unable or do not join with the N. R. A. It is our opinion that a boycott in a country city could not be successfully carried out and might be a flakeback. We believe everyone would like to see all unemployed put to work, hours shortened, and everything else the N. R. A. calls for, but there are numbers of establishments that have carried extra help in order that they might live and are unable to do more and continue in business. We are going to try and get by, but have no intention to lay down and starve without a struggle.

It is with regret that we report our Miss Sheppard ill with inflammatory rheumatism, not doing so well as hoped for. She suffers very much and one of the office force can take part of the suffering to relieve her. Hope for better news later.

Ben Blanton was the lucky one of the family the week end as he had as passengers from St. Louis to Sikeston and return three very charming young ladies who were guests of the Trousdale family. They were Misses Rose Karon, Clarabelle Oberschon and Clara Trousdale.

State School Money To Be Paid Soon

Jefferson City, Mo., August 17.—The second annual apportionment of state school moneys under the new school law has just been completed by State Superintendent C. A. Lee. The first payment will be made on March 15 next. The apportionment for the 1933-1934 school year amounted to \$11,772,879. The amount paid is 15.19 per cent of the apportionment. The March payment probably will not exceed 10 per cent of the total amount of the state's obligation, making in all 25 per cent payment. While the state's just and legal share in the support of the public schools is \$11,661,879, only about \$3,000,000 of that amount can be paid out of the anticipated revenue. Missouri's share in the support of the public schools has fallen off appreciably in the last several years. In 1920 the state paid 16 per cent of the total cost for teachers' salaries and incidental expenses. In 1931 the percentage was 11. The amount of the state's contribution in 1932, based upon the receipts for the fiscal year, however, was 8.8 per cent of the total running expenses of the schools. The state is contributing a smaller part of the total cost, thereby shifting a larger part to the local school districts.

Hiway Projects Total \$1,680,000 In Aug. Letting

Jefferson City, August 19.—Sealed proposals were requested today by the Missouri State Highway Commission for the construction of 127 road projects involving the building of 508 miles of roadway at an approximate cost of \$1,680,000. T. H. Cutler, Chief Engineer, stated today. A total of 383 miles of gravel, crushed stone or equivalent surface, 28 miles of graded earth, 12 miles of 20-foot concrete pavement, 0.8 miles of 10-foot concrete pavement, 31 miles of concrete patching, 46 miles of bituminous mat, and five miles of surface retread are listed. Bids from contractors will be opened and read by the Commission August 25.

In Division 10, (Supplementary Route N will be graded for 6.8 miles between Leopold and Route No. 51 in Bollinger County; Supplementary Route for 3.4 miles between Sturdivant and Route C in that county; Supplementary Route V will be paved for 1.3 miles between Cape Girardeau and Egypt Mills, in Cape Girardeau County; Supplementary Route N will be graded for 7.6 miles between Delta and Drum in that county; Supplementary Route J for 3.0 miles between Higdon and Highway 61 in Madison County; Supplementary Route K for 9.2 miles between Portageville in New Madrid County; Supplementary Route M for 2.2 miles between Point Pleasant and Route K, in that county; Supplementary Route J for 7.8 miles between Steele and Route N, in Pemiscot County; Supplementary Route N for 3.7 miles between Deering and Route J, in that county; Supplementary Route F will be paved for 1.0 County between Route A, and Swift; Highway No. 21 will be graded for 4.8 miles between Doniphan and the Arkansas Line in Ripley County; Supplementary Route F will be paved for 1.0 miles to Sikeston, in Scott County; and Sementon and Route P, will be graded for 7.4 miles through Heagy in Scott and Stoddard County; Supplementary Route H will be graded for 6.8 miles Bradleyville and Route 25 in Stoddard County; Supplementary Route M for 5.3 miles between Leora and Aquilla in Stoddard County.

The federal emergency relief administration, Wallace continued, has indicated its desire to dispose of all the meat to needy persons. It will be purchased by the relief group at a price sufficient to defray the costs of processing, storage and freight. He said the meat would not be sold in competition with that sold in regular trade channels, and that inedible portions which will be converted into by-products "should be distributed in such a manner as not to upset the market."—Southeast Missourian.

NEGRO SCHOOL OPENS MONDAY

Ninety negro school children were enrolled in the first eight grades of the local school Monday morning, stated Roy V. Ellis, superintendent, this morning. The school was opened at this time in order to permit the annual "cotton vacation" later in the season, at which time schools will be closed. Teachers this year include Iola Huddleston, who for the past four years has acted in the capacity of principal. She has charge of infant, mediate, upper grades and home economic projects. Prof. U. S. Hunt is starting his second year, being in charge of intermediate and upper classes. He also supervises a department of woodworking for larger boys. Charlotte Madison is in charge of primary grades and music. This is her first year in Sikeston, having completed a course of study at Lincoln University. She taught one year at Savannah, Mo.

HOG PROGRAM IS OUTLINED BY WALLACE

PLAN WOULD INCREASE PRICE OF PORKERS 25 TO 30 PER CENT.

Chicago, Aug. 18.—Secretary Wallace today outlined the Government's emergency hog program and distributing the meat to the meat packers to process them, and distributing the meat to the needy. In an address at the Century of Progress Exposition, he said that the program will be ready to go into effect in a few days and that he expects it to boost purchasing power in the corn belt substantially. The plan should increase prices of swine, possibly 25 to 30 per cent, he asserted, and at the same time provide relief to farmers heavily stocked with swine but with short feed supplies due to drought.

The program calls for purchase of 4,000,000 pigs weighing 25 to 100 pounds at from 6 to 9 7-2 cents a pound, and 1,000,000 sows soon to farrow, weighing a minimum of 275 pounds, at market prices on the day marketed plus a bonus of \$4. The purchases are to be complete by about Oct. 1. They will be made by "specified processors" for the Department of agriculture. The meat will be turned over to the federal emergency relief administration for distribution.

Wallace estimated the cost of the program at up to \$55,000,000 to be met by a processing tax on hogs which will go into effect after September 30. The tax rate and effective date will be fixed later, he said, estimating that the levy, paid by those who turn swine into marketable pork, will be "considerably less than a cent a pound."

Nothing As Good. Wallace said the plan originated with hog farmers and their representatives to meet the emergency facing producers as a result of this year's short feed crop adding: "There are some things about it we do not like but we are putting it into effect because we have not been able to think of anything as good."

He estimated that the purchasers will reduce the total tonnage of swine marketed for the 1933-34 marketing season starting October 1 by up to 1,800,000 pounds or about 16 per cent of the hog tonnage annually marketed. "If past experience is any guide, a reduction of 15 to 16 per cent in the market supplies should increase hog prices for the season by one where from 25 to 30 per cent," Wallace said. "Prices paid for these pigs and sows will, I believe, be sufficient to warrant the co-operation of hog producers."

Meat to the Needy. The federal emergency relief administration, Wallace continued, has indicated its desire to dispose of all the meat to needy persons. It will be purchased by the relief group at a price sufficient to defray the costs of processing, storage and freight.

He said the meat would not be sold in competition with that sold in regular trade channels, and that inedible portions which will be converted into by-products "should be distributed in such a manner as not to upset the market."—Southeast Missourian.

Chaffee Food Canning Program Is a Success

From Chaffee Signal.—The Baptist Church basement has been the scene of much activity the past two weeks, with a number of people canning beans, corn and fruit for the winter. The work is very efficiently done under the direction of State Relief Worker E. J. Allen, Miss Lois George and Fred Alvey. During Wednesday, Thursday and Friday of last week 1500 quarts of corn, beans and tomatoes were canned. This included 41 cans of tomatoes, 28 cans of corn, 24 cans of peaches and 500 cans of beans. 5,000 quarts of fruit have been canned at various homes, the cans being furnished by the State R. F. C. Committee. The vegetables and fruit are cooked on the kitchen range and several different oil stoves. A large steam pressure cooker with a capacity of 30 quarts and several large iron kettles are used in completing the cooking process.

Small Boy: "I'm afraid of going to the hospital, mother. I'll be brave and take my medicine, but I ain't going to let them palm off a baby on me like they did on you. I want a pup."

Co. K Boys and Officers Return Home From Camp

Members of Company K, 140th Infantry Missouri National Guard, returned Sunday afternoon from the annual two weeks' encampment at Nevada, Missouri, bringing with them approximately \$2000 in cash, which, according to Capt. R. R. Reed, represents pay for one month's drill allowance and the regular camp pay. The amount is roughly divided as follows: Drill pay \$895.90 and camp allowance \$1200, making a total of \$2,095.90, to be spent in Sikeston and vicinity.

Camp life was enlivened this year by a bandit threat stated the Company commander. Cash for the entire camp payroll amounting to approximately \$78,000 had been drawn in cash, when the bandit scare was promulgated. Officers solved the problem of transporting it safely from bank to camp by mounting a tank on a truck chassis and locking the sum of money inside of the steel, machine-gun protected conveyance. Three carloads of armed men accompanied the tank, stated Captain Reed.

Young Burton, a battler, who last winter was featured in a number of bouts at the Armory walked away with the championship honors at camp, scoring three victories via the Kayo route.

508 Motorists Buy Half Year License Plates

Up to Wednesday night a total of 508 automobile and truck owners in this district had purchased half-year or "bargain rate" State license plates, according to the record of Mrs. O. M. Arthur, in charge of the local license bureau.

The total number of plates issued by the office here since February 1, 1933 is 4,977 stated Mrs. Arthur.

RICHLAND CHURCH CLEARS ABOUT \$100 ON ALL-DAY PICNIC

An all-day picnic at the Apple-gate Grove last Wednesday netted Richland Church approximately \$100, stated W. B. Simpson and Roy Johnson, in charge of the affair. The annual picnic and barbecue is held to assist the parish to raise funds for a minister's salary, and members of the congregation, and the support and encouragement given the affair by Sikestonians. Local talent, including Mrs. Bess Elder, Chas. Allen Cook and the Lions Club chorus rendered a number of selections on the entertainment program, for which the committee is duly grateful, stated Mr. Simpson Saturday.

GOVERNMENT WILL PROTECT SIGNERS OF WHEAT CONTRACTS

Missouri wheat farmers who sign up this fall with the Agricultural Adjustment Administration to co-operate for the next two years in the national program of wheat production control will find that their interests are protected at every point in the contract. All the variations in terms that are left to the later discretion of Secretary Wallace will be in favor of the wheat grower who signs the contract, for the Administration is determined to make the contract profitable to the signer. The success of the entire program depends on making sure that growers who sign shall fare better than those who do not. All of the extraordinary powers granted to the Secretary by Congress will be used to this end. An illustration of this flexibility is seen in the fact that the individual signer's farm allotment, the basis upon which he is to receive compensation, will remain unchanged during the 1934 and 1935 crop years, even though world conditions may cause Secretary Wallace to allow the signer to seed more wheat both this fall and next fall than the maximum specified in his contract.

Likewise the bushel rate of compensation that shall be paid the cooperator on his 1934 and 1935 crops grown under his contract with the Administration may be changed to meet new conditions as they arise; this also, being an important power by which the Secretary in response to changing price and market conditions, can make it more profitable for the wheat grower who has signed the contract than to one who has not.

Still another indication of this purpose is seen in the provision that only those growers who come into wheat production control associations this fall can share the compensation benefits for 1933, 1934, and 1935.

Miss Mabel Coughlin of Morley, who had visited in Memphis, Tenn. the past two weeks, returned home Sunday. Enroute home, she visited here at the Wayne Bess home.

Negro Attacks Nurse On Duty Monday A. M.

MISSOURI 22d TO REPEAL 18th AMENDMENT

3 TO 1 VOTE SATURDAY CONSIDERED VERY LIGHT.

Missouri went on record Saturday as the twenty-second state to repeal the Eighteenth Amendment to the Constitution. The popular vote which was almost 4 to 1 in favor of repeal, will be officially ratified on Tuesday, August 29, when delegates will assemble at Jefferson City. Voting everywhere was light. In Scott County for instance the total vote was only 2039, or approximately as many ballots as are normally cast in Sikeston alone. The county vote follows:

Precinct	Wet	Dry	Total
Benton	176	43	219
Oran	191	47	237
Morley	52	63	115
Blodgett	33	63	96
Commerce	38	32	119
Diehlstadt	14	14	28
Sikeston	416	128	544
Chaffee	209	64	273
Fornfelt	224	17	241
Illmo	142	25	167
	1545	494	2039

Only two precincts in the county, Blodgett and Morley, went into the dry column, and one, Diehlstadt, voters deadlocked.

The vote as tabulated is unofficial, since the canvass of votes has not been made.

In the state at large the unofficial, incomplete returns Monday morning were given as: for repeal 483,416, against 135, 389.

Sikes-McMullin in Bankruptcy

Sikes-McMullin Grain Company Inc., Monday morning filed petition in voluntary bankruptcy in Federal Court, Cape Girardeau, it was learned later that day. The matter had been referred to the court of Hon. Joe Moore, referee in bankruptcy, who appointed Earl Allen referee, pending the first meeting of creditors.

Statement of assets and liabilities has not been prepared. The firm, under the management of D. E. and James Keil, has been established in Sikeston for almost 25 years, and has been operated during that time as a conservative business enterprise.

FIRM NAME CHANGED.

Harry Camden, expert tire repairman, and Bill Warren, electrician, have changed the name of their business from Southeast Tire and Battery Station to Center Street Tire and Battery Station, they announced today. The place of business is located one block east of Kingshighway on Center St.

ROBERT DEMPSTER PASSES BAR EXAM

Official notification was made Monday from Jefferson City naming Robert E. Dempster of this city and Randolph H. Weber of Poplar Bluff as two young men who passed the state bar examination last June. Dempster, son of Mr. and Mrs. G. A. Dempster, is a graduate of Sikeston high school, and a student at law, University of Missouri, Columbia. He will complete the course this fall.

New Grocery Opens Friday

Cooks's Califo Market, located at the intersection of Front Street and Kingshighway, will be officially opened to the public next Friday morning, stated John G. Cook, manager of the business today.

The Beck building has been completely redecorated and rewired throughout and new fixtures constructed. The stock of merchandise will include a complete line of groceries, fresh fruits and vegetables and smoked meats.

The public is invited to watch for an opening announcement in this newspaper Thursday afternoon.

ODD FELLOWS

Regular meeting every Tuesday night at 7:30 o'clock, at I. O. O. F. Hall. Officers: John Skelton, Noble Grand; Elmos Taylor, Vice Grand; Charles Bethune, Recording Secretary; Sidney Schilling, Financial Secretary; C. C. White, Treasurer.

Mrs. Howard Dunaway Frightens Prowler Who Attempts Entrance to Ethel Street Home

The third attack of a white woman by a negro within recent weeks occurred about 4 o'clock Monday morning when Mrs. Howard Dunaway, wife of a young physician, frightened an intruder away after he gained entrance to a bedroom where Bobby Ralph, 9 years old, was ill. Mrs. Dunaway is a registered nurse and had been assigned to the case.

In her report of the matter she stated that the negro knocked at the bedroom door. She allowed him to enter thinking the caller was some member of the family. He carried a toy pistol and a quart bottle of vinegar, which had been picked up in the kitchen of the home. Mrs. Dunaway twisted the gun out of the man's hand, dodged the bottle several times and finally wrestled it from his grasp. In the struggle some of the vinegar was spilled, stated the nurse. She added

Child, 10 Years Old, Dies From Gunshot Wound

John Harry Robbins, 10-year-old step-son of Mr. and Mrs. J. A. Edwards, died at the Emergency Hospital here at 11 o'clock Saturday night, approximately eight hours after he had been accidentally shot by a gun left lying on a bed by an older brother at the latter's home near Conran.

The lad had been visiting with his older brother, was preparing to return to his mother's home, and had gone to the bedroom to change clothes. Another boy was in the same room at the time of the accident but the exact details of the tragedy have not been learned. It was stated here Saturday, however, that the older boy had been killing chicken hawks, and that he came in, tossed the gun on a bed and went to the barn lot to feed stock.

From the location of the wound in the lad's hip it was deduced that the boy must have pulled the weapon toward him and that the trigger was released by dedlocking.

Relatives who accompanied the victim here returned home with the body late Saturday night.

New Store Owner Now Located Here

Mr. and Mrs. A. Marks, of Wichita Falls, Texas, arrived in Sikeston Monday morning to make their home. They are to open their store in the Trust Company building just as soon as the store room will commence this morning. They will handle men's and women's furnishings. Watch the Standard.

SIKESTON PROGRAM OVER WREC TO BE TUESDAY, 9:45 A. M.

A special Sikeston and Scott County program will be broadcast at 9:45 o'clock Tuesday morning over radio station WREC, Memphis, under auspices of Malone's Drug Store here. The musical feature of the broadcast is one of the nation's finest orchestras, says Mr. Malone, who adds that about ten minutes of the allotted time will be devoted to a talk on this city and vicinity.

EMERGENCY HOSPITAL

Mrs. Sally Gaty was released Sunday forenoon after a 30-day sojourn on account of injuries in a fall.

Miss Ruby Phegley of Vanduser is recuperating nicely from an appendicitis operation.

Mrs. Marion Grissom of New Madrid is happy over a new baby that arrived Friday morning.

Mrs. Howard Lancaster of Canolou is much improved.

MASONIC LODGE

Sikeston Lodge No. 310, A. F. & A. M.

The Masonic Lodge meets every first and third Thursdays of each month at the I. O. O. F. Hall at 7:30 o'clock. Officers: Boy Seilian, Worshipful Master; A. A. Harrison, Secretary.

NRA

WE DO OUR PART

During the struggle Bobby rained up in bed and then fell over. Mrs. Dunaway screamed as the lad fell over. As the negro turned away she ran to her patient thinking he had fainted. Mrs. Ralph, having heard the commotion, entered the room in time to see the man dive out of an open window through a screen. Both women are positive that the negro left head first and landed heavily on chest or head.

Since a night lamp had been left burning Mrs. Dunaway was able to furnish officers with a fairly accurate description. The man, she said, was young, possibly 18 or 19 years, dressed in light brown trousers, white shirt and shoes. He did not wear a hat or cap. He was light brown complexioned.

In the struggle Mrs. Dunaway ripped his shirt in back but failed to retain a scrap of the garment for possible identification.

After the attack the nurse walked across the street to the home of Deputy Sheriff Ira Shuffit and used a telephone to call her husband, Dr. Howard Dunaway. She reported the affair in full, but failed to inform Mr. Shuffit of the affair. He had heard a noise across the street, he stated, and got up to look around. Everything seemed to be quiet and orderly so he went back to sleep.

Dr. Dunaway first went to the home of Walter Kendall, chief of police, but being unable to arouse him, went up town and called the chief by telephone to report the attack.

Later in the day Sheriff Joe Anderson, Deputy Sheriff Ira Shuffit, highway patrolmen and Ed Howard conducted a search and picked up a number of suspects. Mrs. Dunaway was unable to identify the men picked up.

The attack was the third within recent weeks. Miss Bobbie Erwin was the first to be frightened by night prowler. Last week Pearl Allen of Williams street was badly frightened.

FISH DYNAMITERS ARRESTED FRIDAY

Deputy Game Warden O. M. Headlee, of Morehouse, on Friday arrested Troy and Raymond York for dynamiting fish east of La Forge. They languish in the New Madrid jail and an effort will be made to send them to the penitentiary.

Tuesday he arrested Lawrence, Bill and Henry Masterson, Aldy Gray, J. W. Hewitt and Lige Clark for seining in Blue Hole east of New Madrid, and confiscated their 405 foot sein and 150 pounds of fish. Some of them were able to give bond and some placed in jail a New Madrid.

Prosecuting Attorney J. V. Conran will take the cases direct to Circuit Court.

Sutterfields Enter Stave Mill Business

The Sutterfields, particularly A. and Harold of this city, and possibly two brothers of the former, L. and G. C., admit freely that the building business is definitely in the doldrums. At least for the present.

But the business of cutting stave for beer barrels, white oak stave is definitely on the upturn and going strong; hence the formation this week of the Sutterfield Coopers and Manufacturing Co., with a scene of operations at Coffman west of Ste. Genevieve.

In that area the firm has leased 2500 acres of second growth and virgin white oak timber, sufficient with other optional tracts near to manufacture several million staves.

Mr. Sutterfield and son of the city purchased a new one and one half ton Chevrolet truck chassis and Thursday completed the building of a seasoned oak body for the machine. They were scheduled to drive some 300 miles by 1 o'clock Friday morning, to Arkansas where planer for the mill awaited delivery. The Sutterfields have earned themselves an enviable reputation in the building game, having contracted for and built the municipal light plant building, New Madrid high school, and various other public and private structures in this district.

Kitchen Information

EVERY once in a while we are asked how many cupfuls there are in a can. That is because a modern kitchen would seem an anomaly without several shelves of canned foods ready to heat and serve, or to combine in recipes with other foods. But the trouble is that there are several sizes of cans and many more than two hundred varieties of canned foods.

What to do? We scratch our editorial head, and finally con-

As I See It

By Art L. Wallhausen

U. S. To Boycott Firms Ignoring "Blue Eagle" headline. We do not know about other firms but printers have been worse than boycotted by the U. S. Government long before the Blue Eagle was hatched.

It won't be long until we can expect the snide merchant to begin to prospect in our city and make passes toward opening up a place of business for the so-called busy fall season. Recent past history should have educated our people in this regard for almost every year, in the late summer or early fall, some bird comes (perhaps several), opens up with a cheap stock of bankrupt sale merchandise and sells what he can while there is a little money in circulation. He holds onto all the cash he gets, beats his rent and other bills and folds up at the end of the season. This process is a rank injustice to established merchants and an imposition upon the people doing the town no good, but rather the opposite. The city administration we believe can find ways and means of protecting legitimate business from such graft and in our opinion it is their desire to do so. This is just a reminder to be on the lookout and prepared when the time comes. —Carruthersville Democrat.

Some of our citizens in this county think the Banner editor a hard fellow politically, morally and even editorially. Boy, if we just had the guts to print the dirt on a lot of these fellows like Editor Blanton of the Standard does we would have a bunch of them out playing "drop the handkerchief" with the little girls from the kindergarten. If we ewree to turn the spotlight on some guys in this county we would just be committing suicide. —Lilbourn Banner.

Personal And Society Items From Matthews

(By Mrs. W. H. Deane)

Friends of Mr. Alfred Hunott will be glad to know that he is again able to be up after several weeks' illness.

Mrs. George Ellerbrook and Mrs. Dou Kochel of Canolou motored to Fayette, Mo., Friday to get Mr. and Mrs. William Roberts. Mr. Roberts has been in college in Fayette the past summer.

Mr. and Mrs. Ben Sells, Jr. of Sikeston were guests of Mr. and Mrs. Don Story Sunday.

Mrs. F. D. Boughn returned to her home in Oak Ridge Tuesday after a visit here with friends and relatives.

Mrs. Frank Sibley is ill at this writing.

Harold and Nelson Lumsden returned Sunday from a week's stay in Chicago at the World's Fair.

Miss Fannie Ree Estes returned Sunday from a week's visit in Hayti, with Miss Kathleen Spalding.

We are glad to report that little Arline Brit McGee is much improved at this writing. This little one has been seriously ill.

Mr. and Mrs. Chas. Walker of near East Prairie spent Sunday with Mrs. Terry Bunch.

Mrs. Cleve Tucker of near Sikeston started a revival here Saturday night.

Mrs. Jesse Dole returned to her home in Cape Girardeau Thursday after a short visit here with her parents, Mr. and Mrs. Jack Hartzel.

Little Miss Wydonne King and brother Roy, Jr. of Dyersburg, Tenn., are visiting with their grandparents, Mr. and Mrs. J. R. King.

Mrs. S. A. Fox is very ill at this writing.

Mr. Richard Hunott returned to his home in Arkansas after a visit here with relatives.

Philip Howard, little son of Mr. and Mrs. Alfred Hunott met with a very painful accident last week when he fell and sprained his arm very badly. The sprain was so severe that it was thought that he had broken his arm, but upon examination no broken bones were found.

Little Jackie Lee Christian of Coffeyville, Kans., visited her aunt, Mrs. Don Story Saturday.

Billie Critchlow and Dennis Parsons returned Saturday from the World's Fair.

Miss Alice Deane has been selected to teach the 3 and 4 grades of the Kewanee school. The school in Kewanee opened Monday.

Mr. and Mrs. Pete Daugherty and children of Sikeston spent Sunday with the former's parents, Mr. and Mrs. Albert Daugherty.

Mr. and Mrs. Clarence Hunott and children of near Kewanee visited in Matthews Sunday.

The Matthews baseball club went to Hayti Sunday and played ball. The score was 5-4 in favor of Hayti.

Mrs. Clara Lumert and children visited Mrs. Martha Lumert in Portageville a few days last week.

SEMO COAL DEALERS FORM ORGANIZATION

Approximately 35 coal dealers representing 17 Southeast Missouri towns and communities met Wednesday afternoon at the New Madrid county court house, and perfected an organization for the purpose of submitting a code to conform with the National Recovery Act.

O. T. Knight of Parma was elected president, Vincent Tenkoff of Illinois, secretary and nine members were selected on the board of directors. The association will meet at the call of president Knight.

"CENTURY OF PROGRESS"

MISSOURI COACHES EXHIBITED AT FAIR

Four Fisher Guild Models From State Remain in Annual Race for Scholarships

CHICAGO, Aug. 9 (Special)—A feature of A Century of Progress which has excited widespread comment among visitors the past 10 days is the exhibit of Fisher Body Craftsman's Guild finaling Napoleonic coach models, in which boy craftsmen of Missouri are prominently represented.

The exhibit is on view in the General Motors Building, and consists of from three to four coach models from each of the 48 states, the District of Columbia, and the seven Canadian Guild districts—a total of about 300 models. They are arrayed on tables, in long rows, and at first glance appear exactly alike. Actually, however, they differ in the degree in which they correspond to the plans from which they were built, and 12 Guild judges, each an experienced craftsman himself, are busy with templates and gauges, measuring every model and recording the scores. This scoring will be the basis for the presentation of the year's six international awards, each consisting of a four-year university scholarship valued at \$5,000.

Announcement of the scholarship award will be made on the night of Aug. 16, and will be broadcast by Edwin C. Hill over the Columbia network. It will mark the opening of the third annual convention of the Guild, which falls during Farm Week at the fair. Two boys from each state, who have earned the right by constructing the winning state models, will come here as guests of the Guild, enjoy a four-day outing, and compete for the scholarships.

The Missouri delegates will be Bert Marvin, Jr., of Kansas City, and John R. Pardue, of St. Louis. Two other Missouri boys, Leonard Gettling of Festus, and Wayne Chittenden of Springfield, also have models in the fair exhibit, having finished second in their respective age divisions in the state.

CODE OF FAIR PRACTICE IS ADOPTED BY HOBOES

Chicago, Ill., August 18th.—The silver anniversary convention of the Hoboes of North America convened here tonight and lost no time in adopting the "hoboes" code of fair practice.

The code provides 50 cents an hour pay for all jobs within the province of hoboes.

Hoboes will not wash dishes in a restaurant or work otherwise in a restaurant for a meal. No real hobo ever took a job away from a man with a wife and children.

The code was drawn up by Jeff Davis of Cincinnati, "King of the Hoboes"; Ose Rount, New York, and his father, James Rount of San Francisco.

There was some protesting. The convention officially protested against the construction of modern gferihnt cars because they are built with single rods and the trucks are too high, so that it's hard for 'hoboes to ride the trains.

IF YOU COULD "COME AND GET IT!"

—There has been much said and written recently about the "wide spread" between the cost of generating electricity at the power plant and the charge to the average domestic consumer.

—Everyone knows that the cost of goods at the factory is but a small part of the price to the user. The cost of transportation, distribution, selling, marketing and servicing are the largest factors in determining the sale price of any commodity or utility.

—The public utility business is no different from others in this respect. Our customers cannot go to the power house for electricity and carry it home. If they could "come and get it" we could sell electric current at much lower rates.

—The large items of operating expense included in the electric rate in addition to cost of generating, are: cost of building and maintaining distribution lines to each customer's door, losses in delivery, meter reading, billing, collection and maintaining the service ready for instant use.

—All of these items must be considered in determining the rate to be charged. This "spread" between production cost and sales price is common to every business.

TRUSTEE'S SALE UNDER DEED OF TRUST

WHEREAS, Robert L. Harrison and wife Ella Harrison by their certain deed of trust dated January 29, 1920, and recorded in Book 40 at Page 425 in the Office of the Recorder of Deeds in and for Scott County and the State of Missouri, conveyed to Commerce Trust Company of Kansas City, Missouri, as trustee the following described real estate in the County of Scott, in the State of Missouri, to-wit:

295.845 acres, being the West Half of Lots Numbers 3, 4 and 5 and all of Lot 6 of the Northwest Quarter (NW¼) and the West Half of Lot Number 6 of the Northwest Quarter (NE¼) of Section Two (2);

68.82 acres, being all that part of Lot Number 1 of the Northeast Quarter (NE¼) lying east of the right of way of the St. Louis, Memphis & Southeastern Railroad Company in Section Three (3);

74.46 acres, being all that part of Lot Number 2 of the Northeast Quarter (NE¼) lying east of the right of way of the St. Louis, Memphis & Southeastern Railroad Company in Section Three (3), excepting therefrom the following:—Beginning at the intersection of the north line of the West Half of said Lot 2 of the Northeast Quarter (NE¼) of said Section, with the right of way of the St. Louis, Memphis & Southeastern Railroad, and running thence east on the north line of said Lot 2, fifty feet to a point, thence running in a southerly direction parallel with the right of way of the said St. Louis, Memphis & Southeastern Railroad, a distance of one hundred and fifty feet to a point, thence running parallel to said north line a distance of fifty feet to the right of way line of said St. Louis, Memphis & Southeastern Railroad, thence running northerly along said right of way line to the point of beginning;

291.00 acres, being the East Half of Lots Number 3 and 4 and all of Lots 5 and 6 of the Northeast Quarter (NE¼) of Section Three (3);

133.15 acres, being all of Lot Number 6 of the Northwest Quarter (NW¼) of Section (3) except that part embraced in the right of way of the St. Louis, Memphis & Southeastern Railroad Company;

16.30 acres, described as follows:—Beginning at the north corner of Section Three (3) and Four (4) in Township 27 of Range 13, and running thence west with the Township line 9 chains to the center of drainage ditch at point where the same intersects said Township line; thence, following the meanders of the center line of said drainage ditch to the intersection of the line between said Sections Three (3) and Four (4), and thence north with said Section line 25 chains to the point of beginning, excepting a portion of the right of way of the St. Louis & Gulf Railroad Company, lying within the above described boundaries containing 7.172 acres;

39.16 acres, being all that part of the West Half of Government Lot Number 4 of the Northeast Quarter (NE¼) except that part lying south and east of the right of way of the Gulf Branch of the St. Louis & San Francisco Railroad, and that part included in the right of way of said Railroad as it is now constructed; and

7.44 acres, being all that part of the East Half of Government Lot Number 4 of the Northwest Quarter (NW¼) which lies west of the quarter section line and east of the right of way of the St. Louis, Memphis & Southeastern Railroad (Frisco System) as now located, and north and east of the property line of said Railroad Company; and

.06 acres, being a triangular piece of land in the northeast corner of the East Half of Government Lot Number 3 of the Northwest Quarter (NW¼) which lies north of the property line of the St. Louis, Memphis & Southeastern Railroad Company; and

3.45 acres, of the West Half of Government Lot Number 3 of the Northeast Quarter (NE¼) which lies north of the property line of said Railroad Company last hereinabove mentioned; all in Section Three (3); and

60.232 acres, being that part of the East Half of Government Lots Numbers 6 and 7 in the Northeast Fractional Quarter of Section Four (4) lying west of the middle of Drainage Number 1 of Drainage District Number 3;

All of the above lands being in Township Twenty-seven (27) North Range Thirteen (13) East of the Fifth Principal Meridian, and containing in the aggregate 982.619 acres, which said conveyance was made in trust to secure the payment of their said promissory note in said deed of trust referred to and described; and

WHEREAS default has been made in the payment of the principal and interest due on said note; and

WHEREAS said deed of trust provides that in case of the death, absence, inability or refusal to act of the trustee named therein whereby said trustee shall fail to perform the trust created by said instrument, the owner of the deed is in that event, authorized to name

and appoint a successor to execute the trust therein named; and

WHEREAS said named trustee has by written instrument filed with the owners and holders of said note, resigned as said trustee and refuses to act in that capacity and the holders of said note have appointed successor trustee by instrument in writing duly recorded in the Recorder's Office of Scott County, Missouri, the undersigned as successor trustee.

Now, therefore, public notice is hereby given that at the request of the legal owners and holders of said note and in pursuance with the terms and conditions in the said deed of trust contained, the undersigned successor trustee of Scott County, Missouri, by virtue of the power and authority on him by said deed of trust and the legal holders of said note conferred, will on

MONDAY, AUGUST 28TH

at the east front door of the court house in Benton in the County of Scott and State of Missouri between the hours of 9:00 o'clock in the forenoon and 5:00 o'clock of the afternoon of that day sell the real estate herein above described at public vendue to the highest bidder for cash for the purpose of satisfying said indebtedness and the cost of executing this trust.

L. NEAL ELLIS, Successor Trustee.

First pub. August 1, 8, 15, 22

THROWS ICE PICK THRU WINDOW GLASS

Practicing throwing an ice pick in the manner of a Mexican knife thrower may cost Carl Schneider of Malden, Mo., water melon merchant \$10. Instead of twiddling his thumbs and telling stories to his chums while selling water melons at a stand at 1906 Washington avenue Tuesday, Carl practicing an ice pick at targets on the wall of the barbecue stand at this place, officers said. One throw went wild and crashed thru the glass front, according to the charges against Schneider. He has gone back to Missouri, however, and the authorities are at a loss as to how to make him pay for the glass since the offense is not in the category that permits extradition from one state to another. The officers' principal hope is that he will come back with more melons to sell. Cairo Citizen.

PRELIMINARY SWIM MEET TO BE HELD AUG. 24

Members of Boy Scout troops in Benton, Blodgett, Morehouse and Sikeston are scheduled to compete for swimming and diving honors at the Chaney pool August 24, stated Wilbur Ensor today. Winners of that meet will be entered in the Area Boy Scout swim contest here September 4, Labor Day.

Cape Girardeau and Poplar Bluff Scout districts will also conduct preliminary events to determine their representatives in the Area swimming and diving championship meet. Events on the card Labor Day include, 20-yard speed, free style; 20-yard backstroke; plunge for distance; egg and spoon race; tired swimmers carry; fancy and comic dives; and four-man relay.

Scouts will be divided into two classes, 12 to 15 years in Class "B" and 15 to 18 years in class "A".

The novelty of an archery contest will be an added attraction to the Labor Day meet here this year. While Archery is an activity associated primarily with the older boys movement, all Scouts are eligible to compete. This contest will probably be conducted at the Sikeston High school athletic field.

A court of honor will be held Monday night, stated the Scout leader.

LOW OPERATING COST RECORD SET BY FORD V-8

More than 10,000 miles in 10 days at a cost of only 1.27 cents a mile—this record for economical operation has just been achieved by Eddie Pullen, noted driver, in a stock model, Pennzoil-lubricated Ford V-8, on the desert and mountain roads between El Centro and Jacumba, California, announces Bill Foley Ford dealer here.

"The motor finished the grind without a repair," he added.

The road chosen for the test climbs from 60 feet below sea level to 3000 feet above. Thirty miles of up-hill grade are through the hottest portion of the Imperial Valley desert. Day-time temperatures during the run were consistently around 115 de. in the shade—nearly

Personal And Local Items

From Morley

(By Mrs. C. A. Stallings)

Rev. J. W. Jeffries of Cape Girardeau was called to be pastor of the Baptist church here for another year at a business meeting of the church last Wednesday night.

Mrs. Mad Daugherty and son, Will, went to Shawneetown, Mo., Saturday for a week's stay.

Miss Sarah Daugherty, who is in training at Missouri Baptist Hospital in St. Louis, spent a short while here Tuesday visiting her mother, Mrs. Maud Daugherty, and family.

H. F. Emerson was a business visitor in Cairo Thursday.

Norval Cannon returned Saturday from a few days' business trip to St. Louis.

Floyd Caughlin, who entered the Reforestation Service in the Spring is home for a ten day vacation from the camp at Calico Rock, Ark.

Messrs. H. F. Emerson, J. E. Smith and U. A. Emerson were at Hayti Tuesday to attend a meeting of the cotton ginners of Southeast Missouri.

Mrs. Roy Kilmer and son, Clarence Aaron, of Dexter have been visiting the former's mother, Mrs. Mary Harris for a week.

Miss Justine McCullough of New Madrid is visiting her cousin, Camille Emerson, this week.

Mrs. Jane Moore of Barlow, Ky., arrived Friday to visit Mrs. Rex Boyce. Mrs. Moore's little daughter and Paula Gay Bess of Charleston have been visiting Mrs. Boyce the past week.

The culverts, bridges and grading on the farm-to-market road on the Base line have been completed and gravel-hauling started the first of this week. Mr. McBride, who was Superintendent of the bridge building, left with his family for DeSoto Saturday.

Mrs. R. L. Harrison and daughter, Miss Mary Lee of Benton visited the former's brother, G. D. Harris, and family Friday afternoon.

Large crowds are attending the meeting being held at the Church of God by Rev. James Hooten of Hillman, Tenn.

Mrs. J. Sikes, Sr., and daughter and son of St. Genevieve, Mrs. J. A. Sikes, Jr., and little daughter of Oran were visitors at the C. A. Stallings home Sunday afternoon.

The Co. W. C. T. U. Convention will be held here Tuesday August 15 at the Methodist church. Miss Roena Shaner of Jackson, a national organizer, will be the principal speaker, and a medal contest will be held. A covered dish lunch will be served.

140 degrees in the sun. No water was added to the sealed radiator, however, for the first 8,666 miles. 5 1-2 quarts were added during the entire trip.

"A big factor contributing to the coolness of the motor," Pullen informed Foley "was tough film Pennzoil, used in the correct grade. We started with SAE 20 and later went to SAE 30."

BAPTIST MINISTERS MEET IN CHARLESTON

Charleston Courier:—A conference of Baptist ministers of South-east Missouri is to be held Monday, August 21, at the First Baptist Church in this city, at which a large representation is expected. The program is to open with a devotional service at 10:30 a. m., address of welcome by the Rev. Allen B. Cooper, pastor of the First Baptist Church, and response, introduction of visitors and announcement, and sermon by the Rev. T. E. Lewis, of Dexter. At noon a covered dish luncheon will be served at the service hall.

The afternoon program opens with a devotional service conducted by the Rev. Mr. Cooper at 1:30 o'clock, followed by business and roll call, address by the Rev. R. F. Liddell, of Elvins on "What to Do With New Converts," and general discussion. A woman's program, builded around Will Mayfield College, will also open at 1:30.

The Rev. C. C. O'Neal is president and Dr. J. S. Compere secretary of the organization. The program committee is composed of Rev. Nat Tracy of Kennett, the Rev. Leslie Garrison of Sikeston, and Dr. J. S. Compere of Hayti.

COUNTY AND STATE CROPS BELOW NORMAL

LATE RAINS WILL HELP CORN RATED AT 66 PERCENT FOR SCOTT

The farmers of Scott county estimate August first corn condition as 66 per cent of a full crop and the threshing returns show an average of 6.5 bushels per acre this year for winter wheat. The average for the three years 1930-1932 is 12.9 bushels. The August condition of oats is 31 per cent, potatoes 23 per cent, soybeans 68 per cent, tame hay 40 per cent, pastures 47 per cent, apples 47 per cent, grapes 65 per cent.

The Missouri corn prospect is for 126,610,000 bushels or 60,111,000 under the 186,721,000 for 1932. The acreage is 5,755,000, condition 61 per cent, indicated yield 22 bushels per acre and in 1932, 6,122,000 acres, 81 per cent and 30.5 bushel yield. The late July and August rainfall will help late corn.

Winter wheat yield is 12.5 bushels per acre on 1,220,000 acres or 15,250,000 bushels against 11.2 bushels on 1,326,000 acres and 14,851,000 bushels in 1932.

The 1933 oat crop is 27,504,000 bushels from 59 per cent August condition indicating 16 bushels per acre on 1,719,000 acres. The production of 1932 was 34,371,000 bushels averaging 19 bushels per acre on 1,819,000 acres.

Tame hay acreage is 2,703,000 against 2,538,000 last year and a yield of .87 tons per acre against .90 in 1932 with total tonnage 2,351,619 compared with 2,284,000 tons last year.

Potatoes are smallest crop since 1911 with 2,500,000 bushels against 5,200,000 last year and yield per acre 50 this year—100 last year.

Barley is 168,000 bushels against 322,000 last year and acreage 12,000 against 19,000 with yield 14 bushels per acre against 17 last year.

Rye acreage 13,000 against 15,000 in 1932 and production 98,000 against 112,000 with yield 7.5 bushels for both years.

Pasture condition only 48 per cent of August normal compared with 65 per cent last year and grazing very poor in almost every section of the state. Late rains will help.

STATE ROAD WORK NOTICE TO CONTRACTORS

Sealed proposals, addressed to State Highway Commission of Missouri

Jefferson City, Missouri and endorsed "Proposal for constructing (or improving) State road Route SF, Section 1, Scott County," will be received by the Commission until 10:00 o'clock a. m., on the 25th day of August, 1933, at the office of the Commission in the State Highway Building at Jefferson City, and at that time will be publicly opened and read.

The proposed work includes: Grading and constructing a portland cement concrete pavement, 20 feet wide, together with any incidental work, on the spur to Sikeston, the total length of the improvement being 1,025 miles.

Plans and specifications may be inspected in the offices of the Commission at Jefferson City, or the Division Engineer at Sikeston, Mo. Complete instructions to bidders and proposal blanks may be obtained at either office.

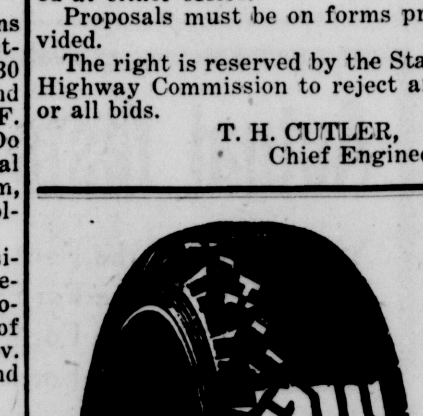

Proposals must be on forms provided. The right is reserved by the State Highway Commission to reject any or all bids.

T. H. CUTLER, Chief Engineer.

SOUTHWESTERN SIGNS N. R. A. AGREEMENT

Southwestern Transportation Company officials, General Offices Texarkana, announced Tuesday August 15th that they had signed the President's re-employment agreement which will be effective until the National Transportation Codes have been adopted. Officials explained that their Company would operate jointly under the Motor Truck Operators' Code, and under the Motor Bus Operators' Code.

The fact that this Company, which is one of the eladers in the leaders in the transportation industry in the southwest, has adopted the Agreement and adjusted the hours and compensation of its employees, bringing employment to some additional fifty men along its System which extends through Missouri, Illinois, Tennessee, Arkansas, Texas and Louisiana, will mean additional payroll of several thousand dollars per month.

J. Ben Blanton of St. Louis, spent the week-end here with the editor and wife.

The regular weekly bingo party will be held Wednesday afternoon. Mesdames C. T. Noble, T. R. Scherer and Schwab will be the hostesses and cordially invite the ladies.

Mr. and Mrs. J. Farris Walker and Mr. and Mrs. M. G. McCoy visited the former's sister, Mrs. Van C. Nation, at Caruthersville Sunday.

Mrs. M. A. Daniels and children returned to their home at Bernie Sunday, after a visit here with Mrs. L. L. Conatser and family. They were accompanied home by Mr. Conatser and family.

Mr. and Mrs. H. J. Welsh and Mr. and Mrs. Harvey Johnson spent the week end in St. Louis with relatives. While there they also attended the Municipal Opera, seeing the performance of "The Cat and the Fiddle."

Mr. and Mrs. W. O. Scott and Mr. and Mrs. Pete Scherer and daughter, visited with the former's sister, Mrs. Randolph Young, at Paducah, Ky., Sunday.

Mr. and Mrs. W. E. Nordan spent the week end in St. Louis.

Mr. and Mrs. Roger A. Bailey and children left Saturday morning for Oxford, Ind. There they were joined by Mrs. Bailey's mother and sister, Mrs. J. H. McCord and Miss Adella McCord, going on to Chicago to attend the Century of Progress Exposition. Mr. Bailey and family will be away one week.

Mrs. Tom Baker and children returned last Friday from a week's visit with relatives at Princeton, Ill. G. N. Ralph, who accompanied them to Princeton, remained for a longer visit.

Mr. and Mrs. W. O. Scott, Mrs. Jewel Gentle and daughter, Patsy Ruth, and Mr. and Mrs. Herman Hood visited with Mr. and Mrs. L. A. Harris at Portageville Friday night.

Attorney R. E. Bailey returned from St. Louis Sunday night, where he had been several days on business.

Mrs. J. F. Cox and Mrs. Glenn Matthews entertained the L. A. W. Class, First Christian Church, and families with a watermelon feast Sunday evening at the home of the former. A large number was present and a very enjoyable evening was spent by all.

For Harry Lee Conatser.

On last Friday afternoon Mrs. L. L. Conatser entertained with a party for her son, Harry Lee, who that day celebrated his third birthday anniversary. Those present were: Mrs. Harry C. Young and son, John Richard; Mrs. V. L. Bowles and daughter, Virginia Lynn; Mrs. Barney Forrester and daughter, Ruth Ann; Mrs. John Scott and daughter, Jacqueline Sue; Mrs. H. M. Kendig and son, Johnnie; and Mrs. M. A. Daniels and children, Jackie and Constance Jane of Bernie.

SUNDAY DINNER SUGGESTIONS

By ANN PAGE

"No price is set on the lavish summer June may be had by the poorest corner."

AND June is here, with its bounty—heaped up beauty for the eyes and for the palate. Brigid June makes it easy for the June Bride to set up her housekeeping. Warm days invite cold foods, fruits, salads, cold cooked meats, refrigerator desserts, and iced beverages.

The stores offer suggestions with their green produce stands, colorful fruit counters, cooked meats in variety, cheeses galore and the dependable tin can. Picnic supplies offered include jellies, preserves, pickles and olives. Most of us wish to take advantage of the fresh foods each in its season and among them to be found this week are new potatoes, cantaloupe and asparagus. Spinach, green peas and strawberries are also very plentiful. The Quaker Maid Kitchen this week offers three simple menus to the June bride.

Low Cost Dinner

Pretty Girls In Sister Town

"One of the big things at our fair the latter part of the month will be the Bathing Beauty contest. You'd be astonished to see how that part of the show interests the crowd," said Edgar Blanton, publisher of the Shelby Democrat, who was here today looking after matters touching the Shelby County Fair, which will be held at Shelbyville August 29—Sept. 1—four days.

"You'd have no idea how many pretty girls there are in north Missouri till you see 'em lined up at our fair. We had the same sort of contest last year, and it was the prize attraction. It was worth the money. You must be sure to come—some of the girls will be from Macon county."

"But, see here, Edgar," the reporter said, "didn't I see a little piece in the Monroe County Appeal, your Dad's paper, jumping on the rotogravure section and the tabloids for printing these pictures about women in swimming, and didn't some woman say—"

"Shucks! When we put that part of the show is on dad will be right up in front. He knows a good show when he sees it."

Mr. Blanton belongs to a well known family of Missouri editors. His father runs the Monroe County Appeal and is president of the Mark Twain Park Association. His editorial colleagues call him "Jack," and they think a world of him.

Charley Blanton is a brother of "Jack" and uncle of Edgar Blanton. He runs the Sikeston Standard, and has made it one of the most distinctive rural papers in Missouri, and it is an astonishing success. Charley is the fighting man in the family. Nobody is responsible for any of the editorials in the Standard but Charley.

One day a citizen was with a girl at a show. The girl was not his wife. The Standard suggested Mr. So and So was at the show with a girl the other night and that it would have looked better for him to be at home with his wife.

Next day the citizen called and demanded to know if the editor was intimating that he was disloyal to his wife.

"No," said Charley, "there was no such intimation at all."

"Oh, well," said the caller, "then we'll say no more about it."

"It was a direct charge," said Charley.

The man looked into Charley's eyes and didn't see a flicker.

"Much obliged," said the caller. "I just wanted to know."

The late B. F. Blanton founded the Appeal, and made it a top-notch country newspaper. When he retired and his son Jack took over the paper Ben Blanton was 80. There was something said about his taking a rest.

"Oh, get out," he said. "I'm going to begin my real work now. I'm just retiring from the control of the paper."

Jack fitted him up an office and said: "Make yourself at home, dad; if you want anything all you got to do is ask for it."

The retired editor started a series of articles he modestly styled "When I Was a Boy."

People at home were not much attracted at first, but the press of the nation quickly realized it was hearing from a man who was telling a marvelous story.

Ben Blanton spent his life. He was a member of a Missouri military expedition organized to go over to the western border to prevent the Jayhawkers from invading the land of Tom Benton. He had adventures on the Missouri river when steamboats were in flower. As a boy he witnessed dramatic murder trials at Fayette. He saw the 49ers in their slow pilgrimage to the land of gold. There was no end to the pictures he stored up in his mind. It looked like he had forgotten nothing. He told the story so vividly that papers all over the country copied it. From ocean to ocean people knew about Ben Blanton and his fascinating stories of yesterday. From 80 on his fame became wider than it had in all the other years of his active, useful life.—Macon Chronicle.

MODERN WOODMAN

Modern Woodmen of America meet first and third Wednesday nights in each month at 7:30 o'clock, at the I. O. O. F. Hall. Officers: Consul, W. M. Rayburn; Advisor, J. A. Stovall; Banker, C. C. White; Clerk, W. C. Edwards; Escort, Leslie Rister; Watchman, C. F. Edwards; Sentry, George Adkinson; Trustees, V. I. Edwards.

MORLEY NEWS

Mrs. U. G. Ragains and daughter, Lula Ruth, left Friday for Memphis to visit Mr. and Mrs. R. W. Modglin for a few days.

Mrs. L. S. Gipson and daughter, Marie, returned Friday from a three-day visit with the former's daughters, Mrs. Virginia Morrison and Miss Irma Gipson at Sikeston.

Mrs. F. M. Lynn of Farnfeld is a guest of her daughter, Mrs. Leonard Ford, Jr.

Mrs. C. H. Gibson and daughter, Helen, who have been visiting relatives in Maine, and visiting in other points of interest in the East since June, returned home Friday.

They accompanied Mrs. Gibson's father, E. A. Hewitt, of Middleburg, Okla.

There was a very light vote polled here Saturday, only 115 from no township, with 63 of them dry and 52 wet votes. Morley voted 109 votes and Vanduser 6.

The two-months-old baby daughter of Mr. and Mrs. Raymond David of Farnfeld was buried in the Morley cemetery Friday afternoon. Mrs. David was formerly Miss Ruby Riley and was reared here.

Mr. and Mrs. Harris Foster and Mrs. Ruth Finney went to Barlow, Ky., Friday to take Mrs. Jane Moore and little daughter, Peggy Ann, who had spent the past two weeks here with Mrs. Rex Boyce and relatives.

The Missourians went fishing Saturday before returning home and caught a string of 19 fish.

Mr. and Mrs. R. H. Leslie and daughter, Miss Marjorie, went to Dexter Saturday for a short visit at the Ivan McGlothlin home.

Miss Mary Ragains has returned home after a two weeks' visit with her son and daughter in Illinois.

Mr. and Mrs. H. F. Emerson and children, Mr. and Mrs. Ralph Vaughn and children and Mr. and Mrs. U. G. Ragains and family were among the Morley people who attended the Richwoods picnic Wednesday.

Mr. and Mrs. Wayne Cummins have moved into a part of Mrs. Sarah Griggs' home.

Several new cars have been purchased recently, the latest arrivals being those of J. E. Smith and Charley Schrock.

At the evening service Saturday August 27, the Epworth League will have charge. An effort is being made to have an out of town speaker, and several short talks will be given by Billy Black, Jim Mac Emerson, Rev. E. C. Ellis and others. Musical numbers will be furnished and a resume of the summer's work given.

Mrs. Jesse Walton and little daughters of Blodgett were Morley visitors Saturday.

Mrs. Wm. Ervin has been very sick the past few days.

Mrs. R. H. Leslie and daughter, Marjorie, Maxine Daugherty, Nancy Leslie and Eloise Stallings were Cape visitors Friday.

MORE ABOUT INFLATION

A few months ago the most talked-about subject of them all was inflation. Then it practically dropped out of the day's news. The president had been given the powers he wanted, and nothing drastic happened. It looked as they wouldn't be used after all.

Now inflation is preparing to take its place in headlines again. The Administration's desire for a "managed dollar" has not abated. It was simply shelved for a time while other and more pressing matters were being handled. A managed dollar is one which, in terms of buying power, does not deviate in value; it will buy as many eggs, automobiles, suits of clothes and year as the next. Our present kind of dollar is constantly deviating. Where its buying power, on the

Actual tests have shown

At 15 M. P. H. the Ford V-8 runs 22 miles per gal.

At 40 M. P. H. the Ford V-8 runs 19 miles per gal.

At 50 M. P. H. the Ford V-8 runs 18 miles per gal.

At 60 M. P. H. the Ford V-8 runs 16 miles per gal.

THEY'RE LOWER THAN EVER

Where good school children get their Supplies

basis of a fixed normal, was sixty or seventy cents at the height of the boom, it rose to \$1.50 at the low in commodity prices we reached last summer and fall.

The president has two courses open in inflating the currency. Most obvious course is to lower the gold content of each dollar. Then by varying it from time to time, the dollar will theoretically possess a constant value, and will be immune to important variations. Another course is to order the Federal Reserve to buy large blocks of government securities in the open market, thus expanding the Federal credit. This would not create a stable dollar; it would, however, be tremendously helpful in providing a market for new Treasury securities.

Opponents of inflation say that the managed dollar is a golden dream which is impossible of realization, and points to the disastrous effects of extreme inflation in Germany and elsewhere. Administration spokesmen say that misarrangement of a plan doesn't necessarily mean the plan is wrong. The public, confused by technicalities, is simply in a waiting mood.

Send all communications to (MURPHY) CAMEL-PAW DEPARTMENT

Fishing in Baldwin Lake, near Pleasant Hill, Cass county, Shirley Glasscock, a Kansas City commission man, recently caught a seven pound large mouth bass. William Burgman, also of Kansas City, caught several bass, weighing from two to five pounds. The Baldwin Lake, which supplies Pleasant Hill with water, is composed of one hundred acres and is patronized largely by Kansas City sportsmen.

St. Louis Construction Company has started work on a dam at the mouth of Hogles Creek, six miles from Warsaw. The dam is part of a project to develop a wild game preserve on the upper part of the Lake of the Ozarks.

Indications are that there will be plenty of rabbits the coming fall and winter. Dry weather and an abundance of feed are the reasons.

W. W. Henderson, attorney and associate editor of the LaPlata Home Press, an authority on Indian lore as well as bird and animal life with a group of friends, paid the Game and Fish department a visit Monday. Mr. Henderson was the author of the state law relating to fur bearers, passed by the General Assembly during the Major administration in 1912.

LAND SOME BIG FISH.

Judge C. C. Furr of Howard county caught a five pound

DIZZINESS

relieved by Black-Draught

"I decided to take Theodor's Black-Draught, as I had been having bilious spells," writes Mr. Chas. E. Stevens, of Columbus, Ind. "When I got bilious, I feel sleepy and tired and do not feel like doing my work. I get awfully dizzy. I know then that I had better take something. After I found how good Black-Draught is, that is what I have used. I guess it rids me of the bile, for I feel better—don't feel like I am dropping off to sleep every time I sit down. That, to me, is a very bad feeling. Now you can get Black-Draught in the form of a SYRUP, for CHILDREN."

basin at Lockridge Lake last Friday. Walter Wells, who was with him, caught a couple of nice ones.

Some nice catches are reported over the week-end near the mouth of the Little Niangua, in Dallas and Camden counties, near Mack's Creek.

The thrill of catching her first fish was experienced last Friday evening by Miss Mary Field, Fayette, Mo., a member of a party camped at Arrow Head Beach on the Lake of the Ozarks. Miss Field fifteen years old, caught two large channel cat in quick succession, using a minnow and fishing in seven feet of water. Several bass weighing from two to four pounds, were also taken by members of the party. Jack Brightwell took a four lb.

large mouth bass above the Bag-nell dam last Friday evening, using a Red Head plug, fishing from a boat.

A "TALL" FISH STORY

The third attempt by a young negro man to assault a white woman in a night club at Siketown the past few weeks occurred Monday morning near 4:00 o'clock at the Shoe Factory addition. The time the intended victim was trained nurse sitting up with sick lad. She fought him off and called for help when he jumped through a screened window and made his bid before officers could be around. Speaking casually, we would take pleasure in helping hang the party if he was caught and identified, and try him afterward. We believe the negro is hiding in Siketown and believe posse armed with shotguns should search every cabin in town for his scoundrel and if caught—let law take its course! It should be the duty of every respectable negro to help catch this beast, because casts a bad name on their race and eventually will lead to a race r

Ben Blanton was the lucky one of the family the week end as he had as passengers from St. Louis Sikeston and return three very charming young ladies who were guests of the Trousdale family. They were Misses Rose Kar Clarabelle Oberschon and Clara Trousdale.

Ninety negro school children were enrolled in the first eight grades of the school Monday morning, starting Royal V. Ellis, superintendent, this morning. The school opened at this time in order to permit the annual "cotton vacation" later in the season, at which time schools will be closed.

Teachers this year include I. Huddleston, who for the past five years has acted in the capacity of principal. She has charge of intermediate, upper grades and home economic projects.

Prof. U. S. Hunt is starting second year, being in charge of intermediate and upper classes. He also supervises a department of woodworking for larger boys. Charlotte Madison is in charge of primary grades and music. This is her first year in Sikeston. She has completed a course of study at Lincoln University. She taught a year at Savannah, Mo.

Kitchen Information

EVERY once in a while we are asked how many cups there are in a can. That is because a modern kitchen would seem an anomaly without several shelves of canned foods ready to heat and serve, or to combine in recipes with other foods. But the trouble is that there are several sizes of cans and many more than two hundred varieties of canned foods.

What to do? We scratch our editorial head, and finally con-

cluded that we could give the information anyway about one of the most popular of canned foods—tomatoes. Clip it out and paste it in the fly-leaf of your cook book or on the door of your kitchen cupboard. There you can refer to it readily, and order a No. 2½ can when your recipe calls for about three and a half cups of tomatoes. And, incidentally, this same table is practically accurate for other vegetables and cans of fruit as well.

Cans	Average Net Weight	Average Cupfuls
8 oz.	8 oz.	1
Picnic (No. 1 Eastern)	11 "	1 1/3
No. 1 Tall	16 "	2
No. 2	20 "	2 1/2
No. 2 1/2	28 "	3 1/2
No. 3	33 "	4
No. 10	6 lbs. 10 "	13

As I See It

—By—
Art L. Wallhausen

The other day we casually opened an ancient copy of Collier's Weekly. It was dated April 8, and had been laid carefully away by some one who evidently wanted to preserve something for future reference.

In glancing through the "Any Week" section devoted to letters from admirers, crabs, and others, we ran across the following gem:

We suggest it be posted in a gilt frame before each secretary and chairman of a Red Cross chapter.

"Just the place to limber up the old intellect and produce the answer to what Mr. Mortimer Isaacs of Helena, Arkansas, propounds: 'Is Isaac reports that an industrial insurance collector dunned a colored citizen for the weekly two-bit premium and was rewarded with:'"

"I ain't got no two bits, Cap'n. My steady job was paying me three dollars a week, but the house raint nain, he say, 'You-all is workin' regular and I wants my money evvy week.' And the 'stallment furniture man, he say, 'I want my dollar evvy week cos you workin' steady.' And he grocery man, he say, 'You is got to pay me cos I see you do to work evvy maw'nin' and if you-all don't rit me yo' two bits I'll be outa benefit yo' and confoundal.' So Mist' Nailah, I jest feels I can't seep all the folks goin' so I quits my job and lets old Raid Cross seed me, suh."

And those in love, or contemplating falling in love, dedicate the following, lifted bodily from the U. S. C. Wampus. It is termed **ELECTRIC LOVE**.

If she wants a date—Meter.
If she comes to call—Receiver.
If she wants an escort—Conductor.

If you think she's picking your pocket—Detector.
If she's slow of comprehension—Accelerator.

If she goes up in the air—Con-lensor.

If she's hungry—Feeder.
If she's a poor cook—Discharger.
If she cats too much—Refriger.

If her hands are cold—Heater.
If she fumes and sputters—Insulator.

If she wants a holiday—Trans-mitter.
If she is narrow in her views—Amplifier.

Our room mate, Howard Turner, and other beardless boys, are buying some of Mr. Palmolive's shaving cream.

They read the magazine ad which said: "No mug required."

The way we get it one who censors books is one who knows more than he thinks other persons ought to.

And if we might be permitted to do so would be tempted to paraphrase the one told by the Lafayette Lyre:

Salesman: Do you wear a night-gown or pyjamas?

Young Lady: No.

Salesman: My name is Ancell, Harold Ancell!

But as Red Heath says of the at-

tractive young lady who ate breakfast in Kirby's Friday morning in riding habit: "She's got everything but a horse."

It started in Cairo or somewhere. A furniture dealer advertised: "You furnish the bride. We'll furnish the home."

Then another adman wrote: "You furnish the bride, we'll do the rest."

And the bridegrooms answered in chorus: "Oh, yeah!"

Personal and Local Items From Canolou

(By Velma McLaurin)

Mr. and Mrs. Milus R. Davis, Owen and Appalone Taul, Mr. and Mrs. E. H. Percy left Thursday for Chicago where they will attend the World's Fair.

Mr. and Mrs. Emson Brever and children, Ann and Billy were guests of Owen and Appalone Taul Wednesday.

Emery Tharp and Jim Castillo were in Marston a short time on Monday.

Mr. F. D. Baughn, who lives near Cape Girardeau, was a Canolou visitor here Sunday.

Misses Eula and Pearl Shrum were in Sikeston Friday.

Mr. and Mrs. Earitt Arbuckle, Mrs. Larry Muffitt and grand-son, Bobby, of Hammond, Ind., are visiting friends here for a few weeks.

Mr. and Mrs. Earitt Arbuckle left here Friday for Braggadoctio where they will spend a few days before returning back here.

Mrs. Shrum, Eula and Pearl Shrum, Helen Jennings, Truman Shrum, Johnny Gibson, and Velma McLaurin were in Lilbourn Saturday.

Miss Pearl Shrum went on to Senath where she will stay for about two weeks.

Mr. Chick Adams retired from business on account of ill health.

Mr. Clem Evans will leave Thursday for Elco, Ill., he will stay there about two weeks.

Misses Eula Shrum and Velma McLaurin were in Parma Sunday.

Mr. Max Morgan and George Ross were here Sunday night.

Mrs. G. H. Cathy had visitors from Memphis, Tenn., the latter part of last week.

Miss Lou Newman spent Saturday in Sikeston.

Mr. and Mrs. Fred Perkins, and children were in Sikeston a short time Monday.

Misses Pearl and Eula Shrum and Mrs. Clara Ralph, and son Bobby, spent the day in Poplar Bluff last Thursday.

Mrs. Jim Newman visited in Dexter Sunday.

Opal Lacy is visiting in Charter Oak this week.

Mr. Elmer Bond was in Pocahontas, Missouri a short time Monday.

The world's first black rose has been produced at Sangerhausen, Germany, and is a cross between two extremely dark varieties of roses and is of a deep velvety black-red hue, so dark, that it may be properly described as black.

Personal And Society Items From Matthews

(By Mrs. W. H. Deane)

Friends of Mr. Alfred Hunott will be glad to know that he is again able to be up after several weeks' illness.

Mrs. George Ellerbrook and Mrs. Dou Koehel of Canolou motored to Fayette, Mo., Friday to get Mr. and Mrs. William Roberts. Mr. Roberts has been in college in Fayette the past summer.

Mr. and Mrs. Ben Sells, Jr. of Sikeston were guests of Mr. and Mrs. Don Story Sunday.

Mrs. F. D. Baughn returned to her home in Oak Ridge Tuesday after a visit here with friends and relatives.

Mrs. Frank Sibley is ill at this writing.

Harold and Nelson Lumsden returned Sunday from a week's stay in Chicago at the World's Fair.

Miss Fannie Rees Estes returned Sunday from a week's visit in Hayti, with Miss Kathleen Spaulding.

We are glad to report that little Arline Brit McGee is much improved at this writing. This little one has been seriously ill.

Mr. and Mrs. Chas. Walker of near East Prairie spent Sunday with Mrs. Tenny Burch.

Mrs. Cleve Tucker of near Sikeston started a revival here Saturday night.

Mrs. Jesse D.oley returned to her home in Cape Girardeau Thursday after a short visit here with her parents, Mr. and Mrs. Jack Hartzel.

Little Miss Wydonne King and brother Roy, Jr. of Dyersburg, Tenn., are visiting with their grandparents, Mr. and Mrs. J. H. King.

Mrs. S. A. Fox is very ill at this writing.

Mr. Richard Hunott returned to his home in Arkansas after a visit here with relatives.

Philip Howard, little son of Mr. and Mrs. Alfred Hunott met with a very painful accident last week when he fell and sprained his arm very badly. The sprain was so severe that it was thought that he had broken his arm, but upon examination no broken bones were found.

Little Jackie Lee Christian of Coffeyville, Kans., visited her aunt, Mrs. Don Story Saturday.

Billie Critchlow and Dennis Parsons returned Saturday from the World's Fair.

Miss Alice Deane has been selected to teach the 3 and 4 grades of the Kewanee school. The school in Kewanee opened Monday.

Mr. and Mrs. Pete Daugherty and children of Sikeston spent Sunday with the former's parents, Mr. and Mrs. Albert Daugherty.

Mr. and Mrs. Clarence Hunott and children of near Kewanee visited in Matthews Sunday.

The Matthews baseball club went to Hayti Sunday and played ball. The score was 5-4 in favor of Hayti.

Mrs. Clara Lumert and children visited Mrs. Martha Lumert in Portageville a few days last week.

SEMO COAL DEALERS FORM ORGANIZATION

Approximately 35 coal dealers representing 17 Southeast Missouri towns and communities met Wednesday afternoon at the New Madrid county court house, and perfected an organization for the purpose of submitting a code to conform with the National Recovery Act.

O. T. Knight of Parma was elected president, Vincent Tenkoff of Illmo, secretary and nine members were selected on the board of directors. The association will meet at the call of president Knight.

MISSOURI COACHES EXHIBITED AT FAIR

Four Fisher Guild Models From State Remain in Annual Race for Scholarships

CHICAGO, Aug. 9 (Special).—A feature of A Century of Progress which has excited widespread comment among visitors the past 10 days is the exhibit of Fisher Body Craftsman's Guild winning Napoleonco coach models, in which boy craftsmen of Missouri are prominently represented.

The exhibit is on view in the General Motors Building, and consists of from three to four coach models from each of the 48 states, the District of Columbia, and the seven Canadian Guild districts—a total of about 200 models. They are arrayed on tables, in long rows, and at first glance appear exactly alike. Actually, however, they differ in the degree in which they correspond to the plans from which they were built, and 12 Guild judges, each an experienced craftsman himself, are busy with templates and gauges, measuring every model and recording the scores. This scoring will be the basis for the presentation of the year's six international awards, each consisting of a four-year university scholarship valued at \$5,000.

Announcement of the scholarship awards will be made on the night of Aug. 16, and will be broadcast by Edwin C. Hill over the Columbia network. It will mark the opening of the third annual convention of the Guild, which falls during Farm Week at the Fair. Two boys from each state, who have earned the right by constructing the winning state models, will come here as guests of the Guild, enjoy a four-day outing, and compete for the scholarships.

The Missouri delegates will be Bert Marvin, Jr., of Kansas City, and John R. Pardue, of St. Louis. Two other Missouri boys, Leonard Gettlinger, of Pease, and Wayne Chittendon, of Springfield, also have models in the Fair exhibit, having finished second in their respective age divisions in the state.

CODE OF FAIR PRACTICE IS ADOPTED BY HOBOES

Chicago, Ill., August 18th.—The silver anniversary convention of the Hoboes of North America convened here tonight and lost no time in adopting the "boes" code of fair practice.

The code provides 50 cents an hour pay for all jobs within the province of hoboes.

Hoboes will not wash dishes in a restaurant or work otherwise in a restaurant for a meal. No real hobo ever took a job away from a man with a wife and children.

The code was drawn up by Jeff Davis of Cincinnati, "King of the Hoboes"; Ose Routt, New York, and his father, James Routt of San Francisco.

There was some protesting. The convention officially protested against the construction of modern firehose cars because they are built with single rods and the trucks are too high, so that it's hard for 'boes to ride the trains.

TRUSTEE'S SALE UNDER DEED OF TRUST

WHEREAS, Robert L. Harrison and wife Ella Harrison by their certain deed of trust dated January 28, 1920, and recorded in Book 40 at Page 425 in the Office of the Recorder of Deeds in and for Scott County and the State of Missouri, conveyed to Commerce Trust Company of Kansas City, Missouri, as trustee the following described real estate in the County of Scott, in the State of Missouri, to-wit:

295.845 acres, being the West Half of Lots Numbers 3, 4 and 5 and all of Lot 6 of the Northwest Quarter (NW 1/4) and the West Half of Lot Number 6 of the Northeast Quarter (NE 1/4) of Section Two (2);

68.82 acres, being all that part of Lot Number 1 of the Northeast Quarter (NE 1/4) lying east of the right of way of the St. Louis, Memphis & Southeastern Railroad Company in Section Three (3);

74.46 acres, being all that part of Lot Number 2 of the Northeast Quarter (NE 1/4) lying east of the right of way of the St. Louis, Memphis & Southeastern Railroad Company in Section Three (3), excepting therefrom the following:—Beginning at the intersection of the north line of the West Half of said Lot 2 of the Northeast Quarter (NE 1/4) of said Section, with the right of way of the St. Louis, Memphis & Southeastern Railroad Company;

74.46 acres, being all that part of Lot Number 2 of the Northeast Quarter (NE 1/4) lying east of the right of way of the St. Louis, Memphis & Southeastern Railroad Company in Section Three (3), excepting therefrom the following:—Beginning at the intersection of the north line of the West Half of said Lot 2 of the Northeast Quarter (NE 1/4) of said Section, with the right of way of the St. Louis, Memphis & Southeastern Railroad Company; thence east the north line of said Lot 2, fifty feet to a point, thence running in a southerly direction parallel with the right of way of the said St. Louis, Memphis & Southeastern Railroad, a distance of one hundred and fifty feet to a point, thence running west parallel to said north line a distance of fifty feet to the right of way line of said St. Louis, Memphis & Southeastern Railroad, thence running northerly along said right of way line to the point of beginning;

291.00 acres, being the East Half of Lots Number 3 and 4 and all of Lots 5 and 6 of the Northeast Quarter (NE 1/4) of Section Three (3);

133.15 acres, being all of Lot Number 6 of the Northwest Quarter (NW 1/4) of Section (3) except that part embraced in the right of way of the St. Louis, Memphis & Southeastern Railroad Company;

16.30 acres, described as follows:—Beginning at the north common corner of Section Three (3) and Four (4) in Township 27 of Range 13, and running thence west with the Township line 9 chains to the center of drainage ditch at point where the same intersects said Township line; thence, following the meanders of the center line of said drainage ditch to the intersection of the line between said Sections Three (3) and Four (4), and thence north with said Section line 25 chains to the point of beginning, excepting a portion of the right of way of the St. Louis & Gulf Railroad Company, lying within the above described boundaries containing 7.172 acres;

39.16 acres, being all that part of the West Half of Government Lot Number 4 of the Northeast Quarter (NE 1/4) except that part lying south and east of the right of way as now established, of the Gulf Branch of the St. Louis & San Francisco Railroad, and that part included in the right of way of said Railroad as it is now constructed; and

7.44 acres, being all that part of the East Half of Government Lot Number 4 of the Northwest Quarter (NW 1/4) which lies west of the quarter section line and east of the right of way of the St. Louis, Memphis & Southeastern Railroad (Frisco System) as now located, and north and east of the property line of said Railroad Company; and

.06 acres, being a triangular piece of land in the northeast corner of the East Half of Government Lot Number 3 of the Northwest Quarter (NW 1/4) which lies north of the property line of the St. Louis, Memphis & Southeastern Railroad Company; and

3.45 acres, of the West Half of Government Lot Number 3 of the Northeast Quarter (NE 1/4) which lies north of the property line of said Railroad Company last hereinabove mentioned; all in Section Three (3); and

60.232 acres, being that part of the East Half of Government Lots Numbers 6 and 7 in the Northeast Fractional Quarter of Section Four (4) lying west of the middle of Drain Number 1 of Drainage District Number 3;

All of the above lands being in Township Twenty-seven (27) North Range Thirteen (13) East of the Fifth Principal Meridian, and containing in the aggregate 982.919 acres, which said conveyance was made in trust to secure the payment of their said promissory note in said deed of trust referred to and described; and,

WHEREAS default has been made in the payment of the principal and interest due on said note; and,

WHEREAS said deed of trust provides that in case of the death, absence, inability or refusal to act of the trustee named therein whereby said trustee shall fail to perform the trust created by said instrument, the owner of the deed is in that event, authorized to name

and appoint a successor to execute the trust therein named; and

WHEREAS said named trustee has by written instrument filed with the owners and holders of said note, resigned as said trustee and refuses to act in that capacity and the holders of said note have appointed successor trustee by instrument in writing duly recorded in the Recorder's Office of Scott County, Missouri, the undersigned as successor trustee.

Now, therefore, public notice is hereby given that at the request of the legal owners and holders of said note and in pursuance with the terms and conditions in the said deed of trust contained, the undersigned successor trustee of Scott County, Missouri, by virtue of the power and authority on him by said deed of trust and the legal holders of said note conferred, will on

MONDAY, AUGUST 28TH

at the east front door of the court house in Benton in the County of Scott and State of Missouri between the hours of 9:00 o'clock in the forenoon and 5:00 o'clock of the afternoon of that day sell the real estate herein above described at public vendue to the highest bidder for cash for the purpose of satisfying said indebtedness and the cost of executing this trust.

L. NEAL ELLIS,

Successor Trustee.

First pub. August 1, 8, 15, 22

THROWS ICE PICK THRU WINDOW GLASS

Practicing throwing an ice pick in the manner of a Mexican knife thrower may cost Carl Schneider of Malden, Mo., water melon merchant \$10. Instead of twiddling his thumbs and telling stories to his chums while selling water melons at a stand at 1906 Washington avenue Tuesday, Carl practicing an ice pick at targets on the wall of the barbecue stand at this place, officers said. One throw went wild and crashed thru the glass front, according to the charges against Schneider. He has gone back to Missouri, however, and the authorities are at a loss as to how to make him pay for the glass since the offense is not in the category that permits extradition from one state to another. The officers' principal hope is that he will come back with more melons to sell. Cairo Citizen.

PRELIMINARY SWIM MEET TO BE HELD AUG. 24

Members of Boy Scout troops in Benton, Blodgett, Morehouse and Sikeston are scheduled to compete for swimming and diving honors at the Chaney pool August 24, stated Wilbur Ensor today. Winners of that meet will be entered in the Area Boy Scout swim contest here September 4, Labor Day.

Cape Girardeau and Poplar Bluff Scout districts will also conduct preliminary events to determine their representatives in the Area swimming and diving championship meet. Events on the card Labor Day include, 20-yard speed, free style; 20-yard backstroke; plunge for distance; egg and spoon race; tired swimmers carry; fancy and comic dives; and four-man relay.

Scouts will be divided into two classes, 12 to 15 years in Class "B", and 15 to 18 years in class "A".

The novelty of an archery contest will be an added attraction to the Labor Day meet here this year. While Archery is an activity associated primarily with the older boys movement, all Scouts are eligible to compete. This contest will probably be conducted at the Sikeston High school athletic field.

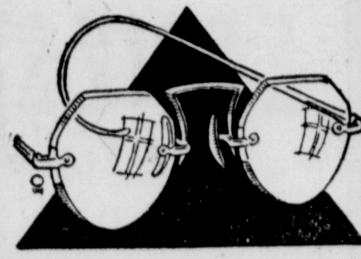

A court of honor will be held Monday night, stated the Scout leader.

LOW OPERATING COST RECORD SET BY FORD V-8

More than 10,000 miles in 10 days at a cost of only 1.27 cents a mile—this record for economical operation has just been achieved by Eddie Pullen, noted driver, in a stock model, Pennzoil-lubricated Ford V-8, on the desert and mountain roads between El Centro and Jacumba, California, announces Bill Foley Ford dealer here.

"The motor finished the grind without a repair" he added.

The road chosen for the test climbs from 60 feet below sea level to 3000 feet above. Thirty miles of up-hill grade are through the hottest portion of the Imperial Valley desert. Day-time temperatures during the run were consistently around 115 de. in the shade—nearly

Personal And Local Items From Morley

(By Mrs. C. A. Stallings)

Rev. J. W. Jeffries of Cape Girardeau was called to be pastor of the Baptist church here for another year at a business meeting of the church last Wednesday night.

Mrs. Mad Daugherty and son, Will, went to Shawneetown, Mo., Saturday for a week's stay.

Miss Sarah Daugherty, who is in training at Missouri Baptist Hospital in St. Louis, spent a short while here Tuesday visiting her mother, Mrs. Maud Daugherty, and family.

H. F. Emerson was a business visitor in Cairo Thursday.

Norval Cannot returned Saturday from a few days' business trip to St. Louis.

Floyd Caughlin, who entered the Reforestation Service in the Spring is home for a ten day vacation from the camp at Calico Rock, Ark.

Messrs. H. F. Emerson, J. E. Smith and U. A. Emerson were at Hayti Tuesday to attend a meeting of the cotton ginners of Southeast Missouri.

Mrs. Roy Kilmer and son, Clarence, Aaron, of Dexter have been visiting the former's mother, Mrs. Mary Harris for a week.

Miss Justine McCullough of New Madrid is visiting her cousin, Camille Emerson, this week.

Mrs. Jane Moore of Barlow, Ky., arrived Friday to visit Mrs. Rex Boyce. Mrs. Moore's little daughter and Paula Gay Bess of Charleston have been visiting Mrs. Boyce the past week.

The culverts, bridges and grading on the farm-to-market road on the Base line have been completed and gravel-hauling started the first of this week. Mr. McBride, who was Superintendent of the bridge building, left with his family for DeSoto Saturday.

Mrs. R. L. Harrison and daughter, Miss Mary Lee of Benton visited the former's brother, G. D. Harris, and family Friday afternoon.

Large crowds are attending the meeting being held at the Church of God by Rev. James Hooten of Hillham, Tenn.

Mrs. J. Sikes, Sr., and daughter and son of St. Genevieve, Mrs. J. A. Sikes, Jr., and little daughter of Oran were visitors at the C. A. Stallings home Sunday afternoon.

The Co. W. C. T. U. Convention will be held here Tuesday August 15 at the Methodist church. Miss Roena Shaner of Jackson, a national organizer, will be the principal speaker, and a medal contest will be held. A covered dish lunch will be served.

140 degrees in the sun. No water was added to the sealed radiator, however, for the first 8,666 miles. 5 1-2 quarts were added during the entire trip.

"A big factor contributing to the coolness of the motor," Pullen informed Foley "was tough film Pennzoil, used in the correct grade. We started with SAE 20 and later went to SAE 30."

BAPTIST MINISTERS MEET IN CHARLESTON

Charleston Courier:—A conference of Baptist ministers of South-east Missouri is to be held Monday, August 21, at the First Baptist Church in this city, at which a large representation is expected. The program is to open with a devotional service at 10:30 a. m., address of welcome by the Rev. Allen B. Cooper, pastor of the First Baptist Church, and response, introduction of visitors and announcement, and sermon by the Rev. T. R. Lewis, of Dexter. At noon a covered dish luncheon will be served at the service hall.

The afternoon program opens with a devotional service conducted by the Rev. Mr. Cooper at 1:30 o'clock, followed by business and roll call, address by the Rev. R. F. Liddell, of Elvins on "What to Do With New Converts," and general discussion. A woman's program, builded around Will Mayfield College, will also open at 1:30.

The Rev. C. C. O'Neal is president and Dr. J. S. Compere secretary of the organization. The program committee is composed of Rev. Nat Tracy of Kennett, the Rev. Leslie Garrison of Sikeston, and Dr. J. S. Compere of Hayti.

COUNTY AND STATE CROPS BELOW NORMAL

LATE RAINS WILL HELP CORN RATED AT 66 PERCENT FOR SCOTT

The farmers of Scott county estimate August first corn condition as 66 per cent of a full crop and the threshing returns show an average of 6.5 bushels per acre this year for winter wheat. The average for the three years 1930-1932 is 12.9 bushels. The August condition of oats is 31 per cent, potatoes 23 per cent, soybeans 68 per cent, tame hay 40 per cent, pastures 47 per cent, apples 47 per cent, grapes 65 per cent.

The Missouri corn prospect is for 126,610,000 bushels or 60,111,000 under the 186,721,000 for 1932. The acreage is 5,755,000, condition 61 per cent, indicated yield 22 bushels per acre and in 1932, 6,122,000 acres, 81 per cent and 30.5 bushel yield. The late July and August rainfall will help late corn.

Winter wheat yield is 12.5 bushels per acre on 1,220,000 acres or 15,250,000 bushels against 11.2 bushels on 1,326,000 acres and 14,851,000 bushels in 1932.

The 1933 oat crop is 27,504,000 bushels from 59 per cent August condition indicating 16 bushels per acre on 1,719,000 acres. The production of 1932 was 34,371,000 bushels averaging 19 bushels per acre on 1,819,000 acres.

Tame hay acreage is 2,703,000 against 2,538,000 last year and a yield of 87 tons per acre against 90 in 1932 with total tonnage 2,351,610 compared with 2,284,000 tons last year.

Potatoes are smallest crop since 1911 with 2,500,000 bushels against 5,200,000 last year and yield per acre 50 this year—100 last year.

Barley is 168,000 bushels against 322,000 last year and acreage 12,000 against 19,000 with yield 14 bushels per acre against 17 last year.

Rye acreage 13,000 against 15,000 in 1932 and production 98,000 against 112,000 with yield 7.5 bushels for both years.

Pasture condition only 48 per cent of August normal compared with 65 per cent last year and grazing very poor in almost every section of the state. Late rains will help.

STATE ROAD WORK NOTICE TO CONTRACTORS

Sealed proposals, addressed to State Highway Commission of Missouri

Jefferson City, Missouri and endorsed "Proposal for constructing (or improving) State road Route 1, Section 1, Scott County," will be received by the Commission until 10:00 o'clock a. m. on the 25th day of August, 1933, at the office of the Commission in the State Highway Building at Jefferson City, and at that time will be publicly opened and read.

The proposed work includes: Grading and constructing a portland cement concrete pavement, 20 feet wide, together with any incidental work, on the spur to Sikeston, the total length of the improvement being 1.025 miles.

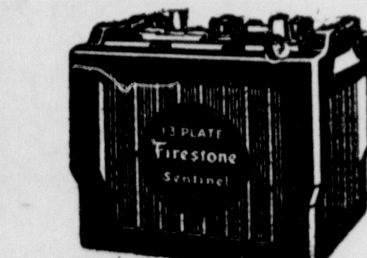

Plans and specifications may be inspected in the offices of the Commission at Jefferson City, or the Division Engineer at Sikeston, Mo. Complete instructions to bidders and proposal blanks may be obtained at either office.

Proposals must be on forms provided. The right is reserved by the State Highway Commission to reject any or all bids.

T. H. CUTLER, Chief Engineer.

SOUTHWESTERN SIGNS N. R. A. AGREEMENT

Southwestern Transportation Company officials, General Offices, Texas, announced Tuesday August 15th that they had signed the President's re-employment agreement which will be effective until the National Transportation Codes have been adopted. Officials explained that their Company would operate jointly under the Motor Truck Operators' Code, and under the Motor Bus Operators' Code.

The fact that this Company, which is one of the eladers in the leaders in the Transportation industry in the southwest, has adopted the Agreement and adjusted the hours and compensation of its employees, bringing employment to some additional fifty men along its System which extends through Missouri, Illinois, Tennessee, Arkansas, Texas and Louisiana, will mean additional payroll of several thousand dollars per month.

REBEKAH LODGE NO. 533

Pretty Girls In Sister Town

"One of the big things at our fair the latter part of the month will be the Bathing Beauty contest. You'd be astonished to see how that part of the show interests the crowd," said Edgar Blanton, publisher of the Shelby Democrat, who was here today looking after matters touching the Shelby County Fair, which will be held at Shelbyville August 29—Sept. 1—four days.

You'd have no idea how many pretty girls there are in north Missouri till you see 'em lined up at our fair. We had the same sort of contest last year, and it was the prize attraction. It was worth the money. You must be sure to come—some of the girls will be from Macon county.

"But, see here, Edgar," the reporter said, "didn't I see a little piece in the Monroe County Appeal, your Dad's paper, jumping on the rotogravure section and the tabloids for printing these pictures about women in swimming, and didn't some woman—"

"Shucks! When we put that part of the show in on dad will be right up in front. He knows a good show when he sees it."

Mr. Blanton belongs to a well known family of Missouri editors. His father runs the Monroe County Appeal and is president of the Mark Twain Park Association. His editorial colleagues call him "Jack," and they think a world of him.

Charley Blanton is a brother of "Jack" and uncle of Edgar Blanton. He runs the Sikeston Standard, and has made it one of the most distinctive rural papers in Missouri, and it is an astonishing success. Charley is the fighting man in the family. Nobody is responsible for any of the editorials in the Standard but Charley.

One day a citizen was with a girl at a show. The girl was not his wife. The Standard suggested Mr. So and So was at the show with a girl the other night and that it would have looked better for him to be at home with his wife.

Next day the citizen called and demanded to know if the editor was intimating that he was disloyal to his wife.

"No," said Charley, "there was no such intimation at all."

"Oh, well," said the caller, "then we'll say no more about it."

"It was a direct charge," said Charley.

The man looked into Charley's eyes and didn't see a flicker.

"Much obliged," said the caller. "I just wanted to know."

The late B. F. Blanton founded the Appeal, and made it a top-notch country newspaper. When he retired and his son Jack took over the paper Ben Blanton was 80. There was something said about his taking a rest.

"Oh, get out," he said. "I'm going to begin my real work now. I'm just retiring from the control of the paper."

Jack fitted him up an office and said:

"Make yourself at home, dad; if you want anything all you got to do is to ask for it."

The retired editor started a series of articles he modestly styled "When I Was a Boy."

People at home were not much attracted at first, but the press of the nation quickly realized it was hearing from a man who was telling a marvelous story.

Ben Blanton had seen life. He was a member of a Missouri military expedition organized to go over to the western border to prevent the Jayhawkers from invading the land of Tom Benton. He had adventures on the Missouri river when steamboats were in flower. As a boy he witnessed dramatic murder trials at Fayette. He saw the 49ers in their slow pilgrimage to the land of gold. There was no end to the pictures he stored up in his mind. It looked like he had forgotten nothing. He told the story so vividly that papers all over the country copied it. From ocean to ocean people knew about Ben Blanton and his fascinating stories of yesteryear. From 80 on his fame became wider than it had in all the other years of his active, useful life.—Macon Chronicle.

MODERN WOODMAN

THE BIJOU "Where good school children get their Supplies"

MORLEY NEWS

Mrs. U. G. Ragains and daughter, Lula Ruth, left Friday for Memphis to visit Mr. and Mrs. R. W. Modglin for a few days.

Mrs. L. S. Gipson and daughter, Marie, returned Friday from a three-day visit with the former's daughters, Mrs. Virginia Morrison and Miss Irma Gipson at Sikeston.

Mrs. F. M. Lynn of Farnfield is a guest of her daughter, Mrs. Leonard Ford, Jr.

Mrs. C. H. Gibson and daughter, Helen, who have been visiting relatives in Maine, and visiting in other points of interest in the East since June, returned home Friday. They accompanied Mrs. Gibson's father, E. A. Hewitt, of Middleburg, Okla.

There was a very light vote polled here Saturday, only 115 from the township, with 63 of them dry and 52 wet votes. Morley voted 109 votes and Vanduser 6.

The two-months-old baby daughter of Mr. and Mrs. Raymond David of Farnfield was buried in the Morley cemetery Friday afternoon. Mrs. David was formerly Miss Ruby Riley and was reared here.

Mr. and Mrs. Harris Foster and Mrs. Ruth Finney went to Barlow, Ky., Friday to take Mrs. Jane Moore and little daughter, Peggy Ann, who had spent the past two weeks here with Mrs. Rex Boyce and relatives. The Missourians were fishing Saturday before returning home and caught a string of 19 fish.

Mr. and Mrs. R. H. Leslie and daughter, Miss Marjorie, went to Dexter Saturday for a short visit at the Ivan McGlothlin home.

Miss Mary Ragains has returned home after a two weeks' visit with her son and daughter in Illinois.

Mr. and Mrs. F. Emerson and children, Mr. and Mrs. Ralph Vaughn and children and Mr. and Mrs. U. G. Ragains and family were among the Morley people who attended the Richwoods picnic Wednesday.

Mr. and Mrs. Wayne Cummins have moved into a part of Mrs. Sarah Griggs' home.

Several new cars have been purchased recently, the latest arrivals being those of J. E. Smith and Charley Schrock.

At the evening service Saturday August 27, the Epworth League will have charge. An effort is being made to have an out of town speaker, and several short talks will be given by Billy Black, Jim MacEmerson, Rev. E. C. Ellis and others. Musical numbers will be furnished and a resume of the summer's work given.

Mrs. Jesse Walton and little daughters of Blodgett were Morley visitors Saturday.

Mrs. Wm. Ervin has been very sick the past few days.

Mrs. R. H. Leslie and daughter, Marjorie, Maxine Daugherty, Nancy Leslie and Eloise Stallings were Cape visitors Friday.

MORE ABOUT INFLATION

A few months ago the most talked-about subject of them all was inflation. Then it practically dropped out of the day's news. The president had been given the powers he wanted, and nothing drastic happened. It looked as they wouldn't be used after all.

Now inflation is preparing to take its place in the headlines again. The Administration's desire for a "managed dollar" has not abated. It was simply shelved for a time while other and more pressing matters were being handled. A managed dollar is one which, in terms of buying power, does not deviate in value; it will buy as many eggs, automobiles, suits of clothes and year as the next. Our present kind of dollar is constantly deviating. Where its buying power, on the

basis of a fixed normal, was sixty or seventy cents at the height of the boom, it rose to \$1.50 at the low in commodity prices we reached last summer and fall.

The president has two courses open in inflating the currency. Most obvious course is to lower the gold content of each dollar. Then by varying it from time to time, the dollar will theoretically possess a constant value, and will be immune to important variations. Another course is to order the Federal Reserve to buy large blocks of government securities in the open market, thus expanding the Federal credit. This would not create a stable dollar; it would, however, be tremendously helpful in providing a market for new Treasury securities.

Opponents of inflation say that the managed dollar is a golden dream which is impossible of realization, and points to the disastrous effects of extreme inflation in Germany and elsewhere. Administration spokesmen say that mismanagement of a plan doesn't necessarily mean the plan is wrong. The public, confused by technicalities, is simply in a waiting mood.

Send all communications to MISSOURI GAME & FISH DEPARTMENT, SIKESTON, MO.

Fishing in Baldwin Lake, near Pleasant Hill, Cass county, Shirley Glasscock, a Kansas City commission man, recently caught a seven pound large mouth bass. William Burghman, also of Kansas City, caught several bass, weighing from two to five pounds. The Baldwin Lake, which supplies Pleasant Hill with water, is composed of one hundred acres and is patronized largely by Kansas City sportsmen.

St. Louis Construction Company has started work on a dam at the mouth of Holes Creek, six miles from Warsaw. The dam is part of a project to develop a wild game preserve on the upper part of the Lake of the Ozarks.

Indications are that there will be plenty of rabbits the coming fall and winter. Dry weather and an abundance of feed are the reasons.

W. W. Henderson, attorney and associate editor of the LaPlata Home Press, an authority on Indian lore as well as bird and animal life with a group of friends, paid the Game and Fish department a visit Monday. Mr. Henderson was the author of the state law relating to fur bearers, passed by the General Assembly during the Major administration in 1912.

LAND SOME BIG FISH.

Judge C. C. Furr of Howard county county caught a five pound

DIZZINESS

relieved by Black-Draught

"I decided to take Theodor's Black-Draught, as I had been having bilious spells," writes Mr. Chas. E. Stevens, of Columbus, Ind. "When I get bilious, I feel sleepy and tired and do not feel like doing my work. I get awfully dizzy. I know then that I had better take something. After I found how good Black-Draught is, that is what I have used. I guess it rids me of the bile, for I feel better—don't feel like I am dropping off to sleep every time I sit down. That, to me, is a very bad feeling. Now you can get Black-Draught in the form of a SYRUP, for CHILDREN."

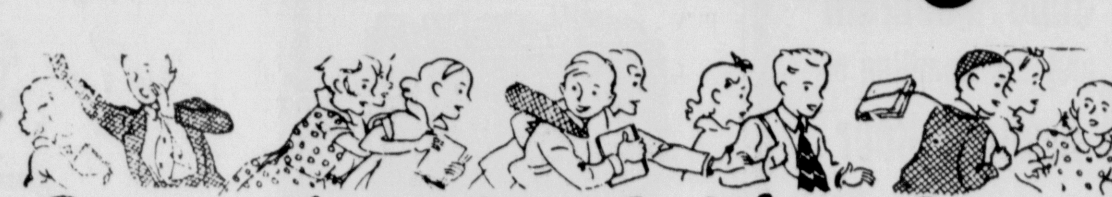

Actual tests have shown

At 15 M. P. H. the Ford V-8 runs 22 miles per gal.
At 40 M. P. H. the Ford V-8 runs 19 miles per gal.
At 50 M. P. H. the Ford V-8 runs 18 miles per gal.
At 60 M. P. H. the Ford V-8 runs 16 miles per gal.

basin at Lockridge Lake last Friday. Walter Wells, who was with him, caught a couple of nice ones.

Some nice catches are reported over the week-end near the mouth of the Little Niangua, in Dallas and Camden counties, near Mack's Creek.

The thrill of catching her first fish was experienced last Friday evening by Miss Mary Field, Fayette, Mo., a member of a party camped at Arrow Head Beach on the Lake of the Ozarks. Miss Field fifteen years old, caught two large channel cat in quick succession, using a minnow and fishing in seven feet of water. Several bass weighing from two to four pounds, were also taken by members of the party. Jack Brightwell took a four lb.

large mouth bass above the Bag-nell dam last Friday evening, using a Red Head plug, fishing from a boat.

A "TALL" FISH STORY
William A. Franch of Eminence, Missouri, fishing in Jack's Fork of Current River, tells this one: Suddenly I heard a terrific splash down the shore some thirty feet and looked quickly in that direction. It was a fine two pound bass flopping on the bank. I presume the bass was chasing a minnow and overreached himself. I have seen bass jump out on the bank when being chased, but this is the first time I ever saw one voluntarily come out of the water to be put on the string, asserts Mr. Franch.
